Contract Award (cl 600 -- Aug 2012)

Battelle may evaluate proposals received in response to this solicitation without discussion (initial proposals should contain the offeror's best price and technical terms). Contract award, if any, will be made to the responsive, responsible offeror whose evaluated proposal provides the lowest price after satisfying all the technical requirements of this solicitation.

Battelle may:

- A. reject any or all proposals;
- B. request clarification of minor irregularities, informalities or apparent clerical mistakes;
- C. waive minor irregularities, informalities or apparent clerical mistakes in offers received
- D. accept any item or combination of items, unless doing so is precluded by a restrictive limitation in the solicitation or the proposal;
- E. award multiple contracts as a result of this solicitation;
- F. reject a proposal as non-responsive if the prices proposed are materially unbalanced between line items or sub-line items. A proposal is materially unbalanced when it is based on prices significantly less than prices for some items and prices which are significantly overstated in relation to prices for other items, and if there is a reasonable doubt that the proposal will result in the lowest overall price to Battelle even though it may be the lowest evaluated proposal, or if it is so unbalanced as to be tantamount to allowing an advance payment;
- G. conduct site visits to the home or field offices of offerors determined to be in the competitive range (offerors will be notified with the date and time of arrival, an outline of the duration of the visit and any assistant/information required);
- H. require oral presentations from any or all offerors, determined to be in the competitive range (offerors will be notified of the time and place for such presentation);
- I. request oral and/or written discussions;
- J. determine a competitive range, including all proposals that are judged to have a reasonable chance of being selected for award, and negotiate with all offerors within it. (In the event a competitive range is determined, it will be based solely on Battelle's judgment, and Best and Final Offers will be requested at the conclusion of negotiations);or
- K. negotiate only with a single offeror to further reduce the price paid if, in the judgment of Battelle after a review of the technical and price offers, only one offeror has a reasonable chance of being selected for award.

Funding is fully obligated for this action. However, contract award is subject to Availability of Funds at the time of award.
